Professional Summary

Dynamic Software Engineer with a strong foundation in .NET Core development and comprehensive experience spanning from manual testing to automation testing. Leveraging 4.3 years of hands-on expertise, adept at crafting scalable web applications and implementing robust testing strategies. Proven ability to collaborate with multidisciplinary teams to deliver high-quality solutions that meet and exceed client expectations. Keen problem solver with a continuous learning mindset, committed to driving technical excellence and contributing to organizational success.

Skills

- C# | ASP.NET Core | .Net WebAPI | EF | JavaScript | TypeScript | SQL | Angular | React | HTML | CSS | Git | Selenium | Unit Testing | MVC | OOP
- Full-Stack | Frontend | Backend | Automation | Manual | English, Hindi, Odia– *All professional proficiency or above*

Experience

Infosys

Bhubaneswar

12/2024 - Present

Project: Foodbuy Technology is Compass's platform that streamlines foodservice operations through supplier management, recipe management, inventory tracking, and role-based access.

Senior Associate Consultant

- **Migration Projects:** Migrated applications from .NET 4.6 to .NET 8 with Entity Framework, modernizing ReportAPI to WebAPI.
- **Service & Repository Pattern:** Implemented service and repository patterns for cleaner architecture and maintainable code, along with unit test cases to ensure reliability and correctness.
- **Query Optimization:** Optimized C# EF queries to improve performance and scalability.
- **Database Migration:** Migrated systems from SQL Server to PostgreSQL, ensuring seamless data transition.
- **Innovation & Automation:** Contributed to a React-based hackathon solution that automated Helix ticket verification, reducing manual effort by 90%.

Accenture

Kolkata, Bhubaneswar

6/2021 - 12/2024

Project: mySP (My Solution Planner) is an internal Accenture platform that helps clients generate reports, estimate costs, project revenues, and plan staffing with role-based access.

Custom Software Engineering Analyst

- **Full-Stack Development:** Played a pivotal role in the development and maintenance of full-stack web applications using .NET Core, Angular, C#, SQL. Ensured high performance, scalability, and seamless integration across the platform.
- **Enhancing Functionality:** Enhanced existing functionalities to meet new requirements, collaborating closely with stakeholders to ensure all changes are aligned with business needs.
- **API Development:** Designed and implemented RESTful APIs in C# to support new features and functionalities, ensuring secure and efficient data exchange.
- **Database Management:** Wrote and optimized stored procedures in SQL, enhancing the performance and reliability of data operations.
- **UI/UX Improvements:** Fixed UI bugs and implemented user interface enhancements to improve user experience and accessibility.
- **Ownership and Accountability:** Took ownership of completing entire web pages for new user stories, from backend to frontend implementation, ensuring timely and high-quality delivery.

App Automation Eng Analyst

- **Script Development:** Developed and maintained automated test scripts using Java and Selenium, following the MVC structure for organized and efficient testing.
- **Efficiency Improvements:** Created a specific automation script for deal generation, reducing the time taken by approximately 50%, significantly decreasing manual effort and increasing testing efficiency.
- **CI/CD Integration & Training:** Integrated automated tests into the CI/CD pipeline for continuous testing and provided comprehensive documentation and training to the testing team, fostering a culture of continuous improvement and efficiency.

Quality Engineering Associate

- **Agile Methodology & Defect Identification:** Followed Agile methodology for comprehensive test cases and manual testing, ensuring application stability through regression and unit testing.
- **Collaboration & Compliance:** Collaborated with developers to resolve issues promptly and maintained compliance with client requirements and internal quality standards.

Education

Bachelor of Technology

C.V Raman College of Engineering

Bhubaneswar

08/2017 - 06/2021

- Major in Computer Science

Volunteer Work

- Volunteered to lead educational sessions for NGO students, covering topics such as Artificial Intelligence (AI), Time Management, Soft Skills development, and the distinction between Hard Work and Soft Work etc.
- Developed engaging and informative content tailored to the students' needs, promoting learning and personal development.
