

PRIYARANJAN DASH

FULL STACK DEVELOPER & TECH INNOVATOR

 Portfolio  Priyaranjan.dev01@gmail.com  +91 8342869898  LinkedIn Profile

PROFESSIONAL SUMMARY

Full-Stack Developer with around **5** years of experience in **.NET Core, Angular, React, SQL**, and **cloud** technologies. Skilled in modernizing legacy systems, optimizing database performance, and crafting elegant solutions to complex problems. Successfully developed **Godfix**, a hyperlocal mobile repair platform serving thousands of users with **SEO-optimized** workflows. Passionate about building scalable applications that **make a difference**, with an analytical thinker mindset, attention to detail, and a strategy for business impact.

TECHNICAL SKILLS

Frontend React, Angular, TypeScript, HTML5, CSS3, Responsive Design, SEO	Backend .NET Core, .NET 8, C#, Deno, REST APIs, Microservices, Supabase	Database SQL Server, PostgreSQL, Entity Framework, Database Design
Cloud & DevOps Azure, AWS, Docker, CI/CD, Git, GitHub, Netlify	Testing & QA Selenium, TestNG, Automation Frameworks, Manual Testing	Architecture System Design, Clean Code, Design Patterns, Agile/Scrum, API Design

WORK EXPERIENCE

Infosys 12/2024 - Present

Senior Associate Consultant

- Migrated legacy apps from .NET 4.6 to .NET 8 with Entity Framework, modernizing the backend system.
- Upgraded front-end from AngularJS 1.6 to Angular 20, enhancing performance and UX across 50+ screens.
- Improved code quality by implementing service and repository patterns, lowering bug rate by 25%.
- Led database migration from SQL Server to PostgreSQL, ensuring data integrity and zero downtime.
- Developed a React-based automation tool for Helix ticket verification, reducing manual effort by 90% and enhancing operational efficiency. [\[View\]](#)

Accenture 06/2021 – 12/2024

Custom Software Engineering Analyst

- Developed and maintained full-stack web applications using .NET Core, Angular, C#, and SQL Server.
- Designed and extended RESTful APIs, ensuring efficient and scalable data exchange across applications.
- Optimized SQL stored procedures and queries, improving data operation reliability by 35%.
- Redesigned UI/UX components and fixed critical bugs, boosting user engagement and satisfaction.

App Automation Eng Analyst

- Developed and maintained automated test scripts using Java and Selenium within an MVC framework.
- Automated deal generation process, reducing manual effort by 70% and cutting testing time significantly.
- Integrated automation scripts into CI/CD pipelines and delivered training and documentation to promote continuous improvement.
- Conducted manual and regression testing following Agile methodology, collaborating with developers to resolve issues and ensure quality standards.

KEY PROJECTS

Godfix - Doorstep Mobile Repair Platform [\[View\]](#)

- Architected and developed a hyperlocal platform for doorstep mobile repair services offering 20+ types of phone repairs with transparent pricing and secure customer data handling.
- Integrated AI-driven content, SEO optimization, and automated workflows for bookings and customer communication.

RiseToWin - Goal & Habit Tracker [\[View\]](#)

- Engineered a productivity dashboard with offline-first data storage to track goals, tasks, health, and daily reflections - helping hundreds of users stay organized and consistent.
- Integrated calendar and progress tracking features, enabling users to build habits, stay focused, and achieve their personal and professional objectives.

EDUCATION

Bachelor of Technology | C. V. Raman Global University, Bhubaneswar

08/2017 - 07/2021

➤ Major in Computer Science, CGPA: 8.13

VOLUNTEER WORK

- Led educational sessions for NGO students on topics including Artificial Intelligence (AI), Soft Skills, Hard Work vs Smart Work, Time Management, and other personal development areas.
- Developed engaging, tailored content to promote learning, personal growth, and skill development.

ADDITIONAL INFORMATION

Specializations: System Design, SEO Optimization, Clean Code Architecture, Automation, End-to-End Project Delivery, and Scalability Design

Professional Strengths: Technical Leadership, People Management, Code Review, Analytical Thinking, Strategic Planning, Customer Empathy, Stakeholder Management

Soft Skills: Agile Collaboration, Cross-functional Team Leadership, Technical Documentation, Mentoring, Client Communication
